The screenshot shows a complex web application interface for managing user accounts. At the top, there's a navigation bar with links like 'Dashboard', 'User Management', 'Logs', 'Reports', and 'Help'. Below the navigation is a search bar with placeholder text 'Search the entire site...'. A dropdown menu for 'User Type' is open, showing options: 'Select User Type', 'Administrator', 'Employee', 'Guest', and 'Visitor'. The main content area has a title 'Pending (0) [1] (0) [2] Create PDF [3] [4]'. It includes a toolbar with icons for 'Print', 'Copy to clipboard', 'Export', 'Display chart', and 'Create view'. Below the toolbar is a table with columns: 'Email', 'First Name', 'Last Name', 'Phone', 'Address', 'City', 'State', 'Zip', 'RoleID', 'DepartmentID', and 'Contract Status'. The table contains several rows of user data. At the bottom of the page are buttons for 'Print', 'Copy to clipboard', 'Export', 'Display chart', and 'Create view'. There's also a link 'Bookmark this SQL query' and a checkbox 'Let every user access this bookmark'.

can you make the index more professional look, and organize the button and place them standard and professional website. Change name like professional look, change the code accordingly **Without "http://tinyurl.com/\_s/10"**. Includes `http://` / Fetch upcoming events `$sql = "SELECT * FROM events ORDER BY Date ASC LIMIT 5";`

**WHO WE ARE**

Update main.css with your suggestions, give the update.css code "#main {background-color: #f0f0f0; height: 100%; margin: 0; font-family: Arial, sans-serif; background-color: #f0f0f0; } body {background-color: #f0f0f0; height: 100%; margin: 0; font-family: Arial, sans-serif; background-color: #f0f0f0; } header {background-color: #f0f0f0; color: white; padding: 1em 0; text-align: center; } header h1 {margin: 0; font-size: 1.5em; } nav ul {list-style: none; padding: 0; text-align: center; } nav ul li {display: inline; margin-right: 20px; margin-left: 20px; } nav ul li a {color: white; text-decoration: none; padding: 10px 20px; background-color: #4444; border-radius: 5px; display: block; }

**What Our Users Say**

"This platform has made organizing events so much easier. Highly recommend!" - Jane Doe

"A must-have tool for any campus event! Great features and easy to use." - John Smith

generate a logo for campus event management system, the name of it is "INLogo"  
Just use "INLogo" in the logo

INLogo A campus event management system. I want you to keep the text "INLogo" just don't mismatch event alphabetically. Now generate logo
